Property overview

Nestling in a private and peaceful tropical paradise, the villa offers 3 amazing living options, each offering beautiful living with sustainability in mind. 651 sq.m . to 951 sq.m. of living space configuration. There are 3 options of the villa total number of units in project is 9 villas Indoor Area: 325– 486 sqm Outdoor Area: 352 – 689 sqm The principal design objective of villas is to create a home that is your sanctuary. To deliver this objective, Mary Pakamard created an integrated architectural and landscape concept embracing sustainable living. This concept of villas is seen as a “synthesis of the arts”; in which we design not just the buildings and the interior spaces, but also the furniture, built in furnishings, the artwork and the accessories. All are extremely sensitively designed in scale with their surroundings, while the owner experience is one of complete privacy. Our process creates spaces and design environments that please our clients and enhance their lifestyle. Our Design Team combines imagination with collaboration and craftsmanship to develop thoughtful, elegantly designed solutions. The essence of our design ethos will always be about the residents and how they live. It is about the reality of making an attractive, tranquil and meaningful environment to live and grow. The villa is located just off the main Layan coastal road behind the Laguna Hotel, Villa and Golf complex. Within 5 minutes drive you arrive at the amazingly vibrant restaurants, shops and nightlife of the Cherng Talay, Boat Avenue entertainment and shopping area and Layan and Bang Tao beaches are just moments from your villa.
