Property overview

A short five-minute drive from the powdery shores of Nai Harn Beach, this elegant collection of single-story villas blends clean modern design with eco-conscious living — all within one of Phuket's most serene residential enclaves. Each villa is thoughtfully planned to offer privacy, light, and intelligent use of space. Soaring 3.8-meter ceilings open up the living areas, while the 54 m² master suite offers a private retreat of scale and comfort. With configurations of 3 or 4 bedrooms, these homes are ideal for families, seasonal escapes, or investment with a lifestyle upside. Set on generous land plots ranging from 600 to 756 m², every villa balances indoor-outdoor flow with purposeful design. A clear spatial separation between the tropical garden and pool areas enhances functionality and tranquility, while underground utilities preserve clean sightlines and natural aesthetics. These are homes designed for the future as much as the present. Solar panels, EV charging stations, and a smart home system come standard — as do eco-minded materials and engineering. A private 6,000-liter water tank complements a reliable central water supply.

Key Features Include:

- Single-story layout with 3.8 m ceilings
- Built-up area from 393–452 m²
- Master suite with 54 m² of private space
- Smart home integration
- Solar panels + EV charging station
- Private water reserve + central system
- Underground communications infrastructure
- 5 minutes to Nai Harn Beach

A refined take on tropical living — these villas offer both comfort and consciousness, just minutes from one of Phuket's most beloved beaches.
